

Solutions! Pass it on.

Explore Leading-edge Solutions to Learning Disorders with World-Class Researcher-Author-Practitioner Dr. Charles Krebs

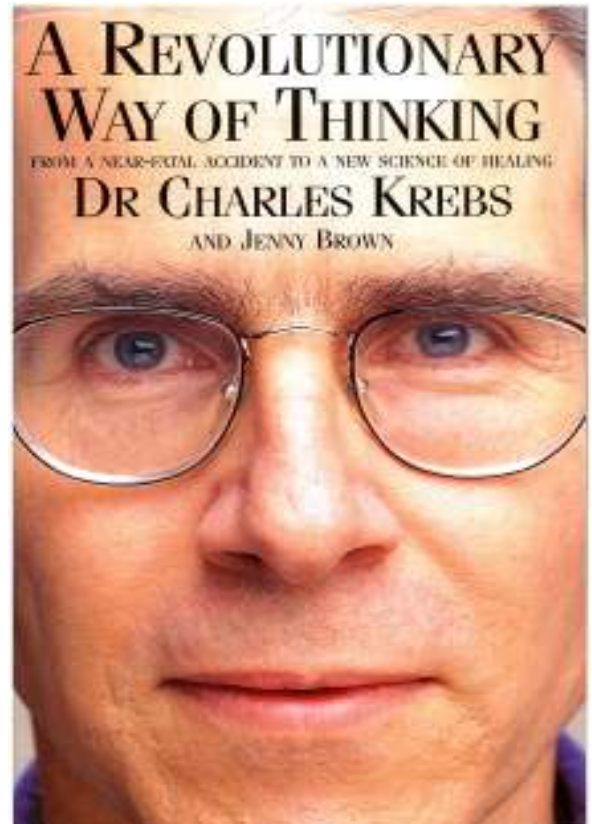

Dr. Charles Krebs is respected around the world for his development of a system which addresses a wide variety of learning, behavior, emotional, and brain disorders without the use of dangerous medications.

A consummate scientist, Dr. Krebs is renowned for his ability to explain complex physiological processes in compellingly clear and entertaining terms.

Sought after as a teacher and lecturer, Dr. Krebs has authored two popular books related to the field of learning and brain disorders.

His first book, *A Revolutionary Way of Thinking*, describes his incredible journey through a life-threatening injury that led him to create and teach a brain integration modality called L.E.A.P. (Learning Enhancement Acupressure Program), that is now practiced around the world. Clients of this work have experienced dramatic improvement in school and work performance, reduced stress, and healthier relationships.

Dr. Krebs' second book, *Nutrition for the Brain: Feeding Your Brain for Optimum Performance*, is a detailed investigation of the role that proper nutrition plays in a healthy brain.

You Are Invited to Attend this
